[illegible][illegible]

The figure consists of two side-by-side line graphs. Both graphs have 'Rate of reaction' on the y-axis and 'Temperature' on the x-axis. The left graph shows a curve that starts at a low rate at low temperatures and rises very steeply as temperature increases, indicating a high activation energy. The right graph shows a similar curve, but it rises more gradually with temperature, indicating a lower activation energy.
